

Helping your hospitality business to serve up success

Epos Now has spent over a decade working with the hospitality industry to develop innovative solutions that over 63,000 business locations rely on. From our humble beginnings, when our CEO started as a local business owner, we've always put the business first. Now, we empower small cafés to multi-site operations to thrive across the USA and the world with our leading point of sale technology.

User-friendly software

Simple to integrate payments and easy to operate, reducing training to as little as 15 minutes.

Multi-channel ready

Use apps and integrations to offer ordering, delivery and pay-at-table to your customers.

Simple support

24/7 support is available to help with any technical issues and training.

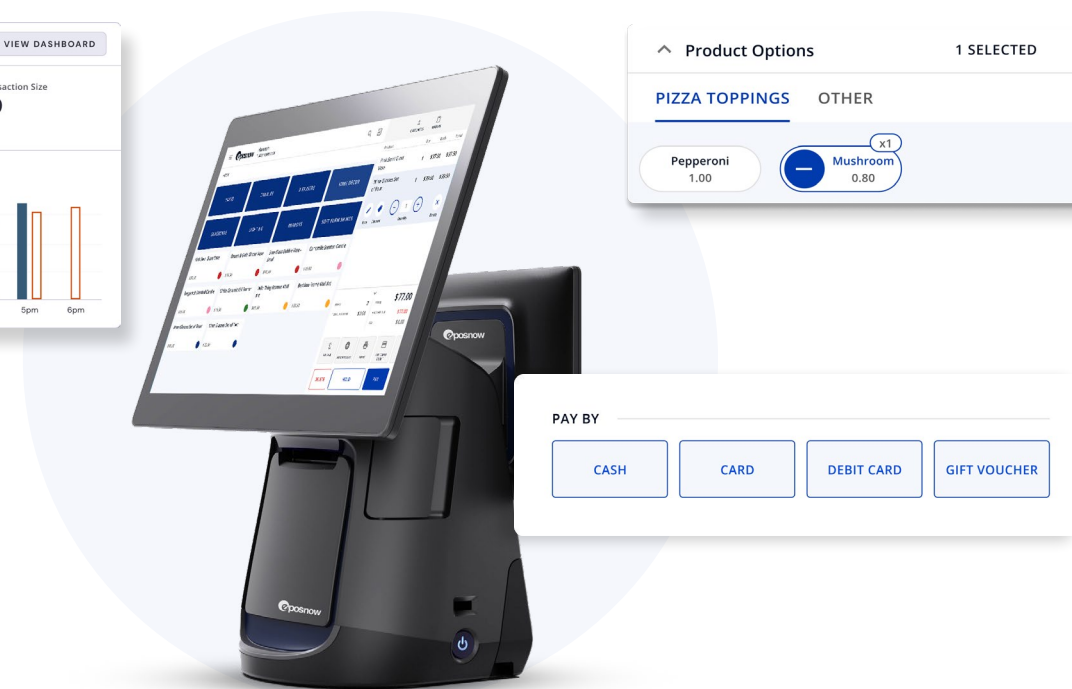

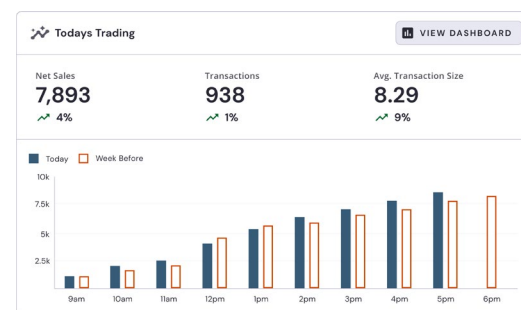

Save time on admin

Get up to 10 hours back every month with Epos Now's speedy system and reporting.

Equip staff with easy-to-use sales tools

- **Speed up your service** with the solution that makes it easy to customize your menu, manage product inventory and monitor the serving status of tabs.
- Build **custom table plans** with painless bill splits, merges, and quick-tipping for your checkout.
- Use **real-time reporting** to make efficient business decisions, covering tracking staff shifts, inventory management, transaction trends and more!
- Advance your business with instant communication between your front of house and kitchen with the **Epos Now Kitchen Display System**, cutting wastage by up to 60%.

“We love Epos Now’s adaptability, as our menu changes all the time! I would recommend Epos Now in a second.”

– Tom Peason, Stuzzi restaurant, Leeds
